There is more to being a dope boy, a hood entrepreneur, than slanging dope. The art of dealing the best quality drugs to the neediest crack head took patience, precision and street smarts qualities Kason "Kaotic" Lafleur had down pack. Inheriting the family business from his uncle, Kaotic becomes a self-made millionaire by producing the purest coke and skillfully smuggling them into the US without lifting a finger. With a take charge attitude and boss mentality, Kaotic, the leader of the Dade County Goonz (DCG), only concern is money. To him, if it didn't make money it didn't make sense. Not even the slew of women he has encountered during the many rendezvous has the ability to shift his attention. Getting him to care and love was practically unachievable and non-existent until he met her... Serenity has it all; beauty, brains and a bank account with more zeros than she knew what to do with. From the outside looking in, Serenity has it together. Her life is goals to many except no one knows the demons she faces. The fear of love forces her to use men for sex before tossing them aside. Her wild behavior mirrors the pain she's truly going through, the pain no one can understand, pain that is uncontrollable until she met him... Love can be so beautiful yet painful in the same sense. Kaotic struggles with the adjustment his heart forces him to make as he allows a broken woman into his life, one who is so harmless, but can potentially cause him and his organization so much damage. Serenity struggles to keep secrets hidden, secrets that could potentially cost her- her life.
