Union Army sergeant Sam Walker returns home to Iowa after leaving a prisoner of war camp, only to discover that his sweetheart has married his brother. He heads down to Mulberry, Texas, to keep a promise to his fallen Union army brother-in-arms, Joe Farrell, to make sure that his family is safe. But what Sam finds is the Farrell family in shambles: a gang of former Confederate soldiers are harassing them because of Joe's Union service. In desperation, Joe's widow, Julia, has married the gang's sadistic leader -- a man Sam had haunting his dreams since the war. To rescue Julia, Sam will need to rely on his wits as much as his guns, and he'll need the help of the whole Farrell clan, including Joe's disarming younger sister, Mary. This is a new release of an edition originally published by C.J. Petit.
