Sassy, classy, and in no need of a man. That's me. At least, until now. My mouth has been known to get me into trouble, and now is a perfect example. I've been asked to tutor the star of the football team, Zach Knight. To top it off, no one can know, and I have to pretend to be his girlfriend as a cover story. And he's insufferable, thinking with this other head. But the more I sass him, the more he wants me. The more I say no, a word the Big Man on Campus rarely hears, the more he chases me. But his alpha attitude is doing crazy things to me. Every snarl I make sounds more like a purr. Every bratty pout looks more like a naughty invitation. And as the line between real and pretend blurs, I suddenly find myself wanting Zach to take everything from me. My body, and maybe even my heart. *Silk and Shadows* is an Accidental Romance with an HEA, no cheating, and no cliffhanger!
