The start of everything is critically important - and every truly successful product or business starts with a successful launch. Unfortunately most entrepreneurs put all their focus into "getting the doors open" without giving much thought to creating a great launch. However, since 1996, Jeff Walker has been obsessed with creating hugely successful launches in our increasingly digital world. During those years Jeff created an unbroken string of amazing successes for himself and his clients. Operating tiny businesses in an almost underground society, they've collectively done over \$400 million in sales. Launch is the "how to" manual for using Jeff's formula to follow a path of success - to create a product or business launch that gives you nearly instant momentum, sales, and positioning.
