She is mine...she just doesn't know it yet. Nikolai When people look into my eyes they realize instantly that they'll find more pity looking into a cobra's eyes. I'm ruthless and heartless, and I have the Midas touch. Everything I touch turns to gold. There is not one thing I wanted that I have not ultimately conquered and made mine. Now I want her. There's one problem though. She hates my fucking guts. But I'm licking my lips. I know how to fix that. I'll make her submit, then I'll take her, over and over until she's in no doubt who she belongs too. Start it isn't meant to be anything more than a contract I have to fulfill. One month and it will be over. I'll get through this, then I can go back and pick up the pieces of my life. When I meet the Russian, the owner of the contract, any worries that I need to harden my heart and keep my emotions locked up, disappear. This man makes it easy to hate him. He is the most arrogant, cold-hearted brute I've ever met. I hate him... Well I do... until the unthinkable happens. This is a standalone romance with a HOT ALPHA male and guaranteed HEA.
