A madman. A diabolical scheme. Three lost hearts. The abduction of Sydney throws Colin and Anthony into a sinister game with a sadistic man who is determined to take everything from Colin. Sydney's only crime is being the one person Colin and Anthony can't live without. As nothing more than a pawn, she endures mental, physical, and emotional torture while relying on herself to survive. Colin's efforts to protect Anthony from the maniacal actions of the sadist take their toll on the two best friends, driving a wedge between them while Sydney continues to suffer. The special bond the three created is tested. Will it be enough for her to survive at the hands of a man dead set on shattering Colin? *This book contains content that is not suitable for readers under the age of 18.
