Can three broken men feel whole again? Inexperienced alpha, Fritz knows he is called to protect Link. The fox shifter has lost everything he loved in a tragic attack, including--he thinks--his mate. When Link decides to volunteer for the shifter exchange, which means he'll have to leave the pristine forest setting to operate under the authority of the manipulative, yet cunning, Sibeliuss in New York City, Fritz knows he must follow. Who else will protect Link in the big city? Fritz doesn't go without bringing his own shame. He can't help but think if he was a more experienced alpha, he'd be able to help his fox better. Haunted by the ghosts of his past, Link is eager for a change of scene. And if he gets to help take down the Protectors of the Pure—an anti-shifter terrorist organization—then he'll at least have a chance at avenging his family. But grief travels and it doesn't take long before it has caught up with him. He's more thankful than he'll ever admit for Fritz's company, but living the sheltered life he had on his family's farm did little to prepare him for the world and Link doesn't think he'll ever be good enough for Fritz. Then they meet Crius, an onyx dragon shifter running from his own demons. He's in town along with representatives from the other dragon tribes to help fix the mess they caused. Crius had planned on spending his time wallowing, but that's before he spots two naïve shifters in a big bad city. It's clear they are in over their heads in every way. But what isn't clear is why Crius cares. The young shifters obviously have a past, one that doesn't include Crius and he doesn't think he can take being shoved aside again. But, his inner dragon will not allow the fox or hybrid out of his sight and before he knows it, the pair has become a trio. Meanwhile, the Protectors of the Pure are fighting a political game. They know they need the public's favor if they want to be able to release the shifter "cure" to the general population and they will use every dirty trick in the book to achieve that goal. Will the three fractured shifters face the Protectors unscathed? More importantly, will they be strong enough to put aside the trauma of their pasts to embrace a pregnancy that no one saw coming?
