CONTINUE ►

When a meteor strike unleashes an alien intelligence bent on taking over the human race, only a ragtag band of Marines can stop them. The only problem is, they're in prison for a crime they didn't commit. For the next 98 years. And their prison is two and a half billion kilometers from Earth on a good day. Oh, and their fellow inmates want them dead... Hey, nobody ever said saving the world would be easy.
