

## Zh8jB [GET] Alphabet Flash Cards, Ages 3+, PreK, 52 cards, great value, travel-friendly & self-storing, with adorable illustrations

CONTINUE ►

Alphabet Flash Cards include 52 brightly illustrated cards to help teach ABCs and letter-picture association to build essential pre-reading skills as part of the preschool curriculum. A Parent Card offers game instructions, extending the preschool fun and lessons, and hours of practice get kids ready to read and learn. Relatable illustrations make Alphabet Flash Cards both fun and practical. O is for octopus! Build alphabet skills one letter and picture at a time. Boys & girls love playful illustrations that improve focus and motivation. Cards printed on thick durable, glossy cardstock include all upper- and lowercase letters, written in bold, easy-to-read block style, and rounded corners make for easy sorting and handling. Preschoolers build skills in ABCs, eye-hand coordination, letter-picture recognition, and word-picture recognition. Great for daycare, preschool classrooms, and homeschool classrooms, the convenient storage box and card size makes them perfect for taking anywhere. Kids and parents who use our flash cards for practice testing are using one of the most effective learning techniques available. A hundred years of research shows practice testing is highly likely to boost retention. Why would Digital Age kids benefit from using flash cards? Because they offer a fun, fast, easy, time-tested way to memorize new information and apply important concepts. Flash cards help with active recall activity stimulating memory during the learning process instead of passively recalling it later on. Reviewing information again and again at spaced intervals helps reinforce it and builds and strengthens memory and memory pathways. Flash cards also offer great possibilities for parents working together with kids, and kids working with friends and siblings. School Zone flash cards offer big learning power packed with near-endless possibilities. One delighted parent had this to say about Alphabet Flash Cards: Just started using the alphabet flash cards and a few others today. They are amazing. My 3-year-old loves them and so do I. I love how he can remember things easier now since he can put the letter to picture of something he knows and can make it a game. We spent hours today doing nothing but interacting with the cards because that's what he wanted to do. Alphabet Flash Cards for preschoolers and kindergartners bring skills such as memory, listening, and movement into each fun-filled lesson. Children will get to know phonics and learn to connect letter sounds with objects: K is for Kite, for example. These ABC flash cards will also teach them that each letter is a symbol that can be memorized. Drop these flash cards in a backpack or purse, and pull them out anywhere, anytime for practice in the alphabet and making those essential connections between letters and pictures and words and pictures. Make memorizing and learning fun. Make clean-up and storage easy.
