Ideal for clinical students including medical, nursing, pharmacy, dental, physician assistant and more! Evidence-based information plays a critical role in clinical practice decisions. Secondary sources are often unreliable; it's up to the student, then, to critically assess peer-reviewed research literature. Using a highly structured yet accessible method, this best-selling text teaches students to critically analyze research from primary sources. Step-by-step approach learn to recognize a meaningful study, clues to potential study flaws, and ways to apply solid evidence in clinical practice. Simple 6-point framework learn to evaluate studies in terms of the authors trademark mnemonic device, M.A.A.R.I.E. (Methods, Assignment, Assessment, Results, Interpretation and Extrapolation). Unique Learning Aids - question checklists, real-world scenarios, flaw-catching exercises and more help to make complex concepts easy to grasp. New! FREE Online Support!
