

[GET] 10 Easy Ways To Spot A Liar: The best techniques of Statement Analysis, Nonverbal Communication and Handwriting Analysis

CONTINUE ►

"10 Easy Ways To Spot A Liar" discusses the best techniques in detecting deception. These ten techniques are from Mark's book "Don't Be Deceived." It has been estimated that in a single day most people tell about 20 lies. Some of these lies may be trivial white lies told simply to be polite. However, some people lie in an effort to take advantage of you. Knowing how to spot a liar can help you avoid trouble. Without the aid of a machine, there are only three methods you can use to detect deception. You can analyze the words people use, read their body language, or examine their handwriting. "10 Easy Ways To Spot A Liar" highlights the best techniques from all three of these areas. These ten easy to learn techniques will greatly enhance your ability to spot a liar. For more techniques and an in depth look at detecting deception, consider reading "Don't Be Deceived."
