A night with a dragon held more complications than Misty could have ever imagined...Misty never believed in mythical creatures, especially dragons, until her friend married one. On a mission to find the truth, Misty meets Volcant, and spends a night of passion in the dragon's arms, knowing she will never see him again. As head of the King's guard, Volcant has finally gained the information he needs to pursue the assassins from the future that infiltrated the palace years ago and subsequently killed the queen and kidnapped the king's daughter. A night of boundless pleasure with a stranger is just a distraction until he completes his mission. When a portal malfunctions, Volcant finds himself flung a year into the future. Not sure what is present and what is past, Volcant only remembers his mission to find the assassins. He captures Misty, mistaking her for an assassin and her baby girl for the long ago kidnapped princess. Can Misty convince Volcant that she is not who he thinks she is, and neither is their daughter Cara? Will Volcant let his muddled memory lead him on a path of destruction or will he trust his heart? **AUTHOR'S NOTE:** This is a 31,000-word stand-alone paranormal romance story with HEA, so no cliff-hangers! This story includes alpha male, time travel, and dragon shifter elements. Story contains mature themes and language, and is intended for 18+ readers only.
