She loved him when he was no one. Now he's a famous rock star...and he wants her back. Violet Valentine has had enough of tattooed bad boys for one lifetime. Sure, nice guys don't set her on fire the way her ex Ethan did. They don't have his piercing blue eyes, or his bright smile, or his skilled hands. They don't serenade her with her favorite songs. Or make her laugh until her sides ache. Or make her feel so good she could die. None of that matters. Ethan isn't breaking her heart again. No one is. Violet has more on her mind than her love life. She needs to finish her master's in mathematics. Then there's the little matter of figuring out what she's doing after graduation. Rock star Ethan Strong is happy with his work hard, party harder lifestyle. In theory. The perfectionist guitarist has everything he wants, but he still goes home hollow. He still falls asleep thinking of his ex. No amount of casual sex can erase Violet from his mind. No matter how much he devotes himself to his guitar, he still craves the gorgeous math geek. Now she's back in his life. For two weeks. That's two weeks of resisting her reserved smile, her green eyes, her soft body under his. Or it's two weeks of them tangled in the sheets, his name rolling off her lips. Two weeks to get her back. Dangerous Kiss is a full-length standalone second chance romance with a smoking hot rock star hero, a take no sh** heroine, Kindle-melting chemistry, and a HEA. Dangerous Noise follows the men of rock band Dangerous Noise and the women they love. Each book is a full-length standalone with a HEA.
