CONTINUE ►

If infertility took only a week to resolve, we could all cry and freak out for seven days, and then go on with our lives. But it doesn't. And whether we have to deal with it for a month or years, it's simply too long to live without laughter. This little book was written by a humor writer and infertility survivor. This is her story of how she navigated through the confusing, anxiety-ridden world of doctors, nurses, butt shots, health insurance, nosy coworkers, inept receptionists, etc. etc. Get ready to have some laughs at infertility's expense!
