Liberty was forced at a young age to be an adult figure to her siblings. Her mother was strung out on drugs, and Liberty was on her on. Roaming the streets searching through trash cans just to feed her brothers. Life had dealt Liberty the short end of the stick; she was a victim of her circumstances. With everything around her was so negative, Liberty is one step away from suicide, but everything changes when she gets close to a smooth looking boy named Sincere. Sincere was neighborhood dopeboy, with dreams of being king. The only thing missing was a loyal woman to help him along the way. Sincere fell deeply for Liberty and nothing could stop them. He shows her a side of herself that Liberty never knew existed. Now, running the street as king and queen, people are out to see them lose. Ex-boo thangs and betrayal from best friends brings along a set of problems. Tune in to this classic standalone to see if Liberty and Sincere's love can stand the test of time. Is their love strong enough to survive lies, deceit, temptation and greed. Luvin my Lil Mama will have you on the edge of your seat.
