Putting this powerful message into print for the first time, visionary pastor Louie Giglio and songwriter Matt Redman team up to write a heart-stirring book about the mysteries of God's creation. Indescribable takes readers on a journey through the vastness of outer space and into the depths of the soul. Modern science allows viewers to see farther into space than ever before, and every step draws them closer to the God who breathed each star into existence. In Indescribable, the authors intertwine devotional insights with remarkable scientific facts that awaken both mind and spirit. As Giglio and Redman write, God turnswonderers into worshipers. Above all, Indescribable is a call to worship—an invitation to know and be known by the God of all creation and to become more passionate worshipers of Jesus Christ.
