Iris Tremaine is rich, sexy, beautiful, and way above my pay grade. But that's not about to stop me. The attraction is mutual and intense. Iris has never been with a man like me, a man who overwhelms her, a man who says and does things to her that her pedigreed boyfriends never dreamed of. If her oil baron father finds out, losing my job will be the least of my worries. Roger Tremaine will never accept the thought of a common roustabout putting big, dirty hands on his little princess. When Iris gets pulled into a plan to cover up the company's poor safety record, she needs my help to expose the truth. Getting involved raises the stakes for both of us. When it comes down losing her inheritance or the rough love of the only man who's ever given her real pleasure, which will Iris choose?
