If you're looking for information on how to prepare for a short-term natural disaster, this is not the book for you. Best-selling author Jonathan Hollerman will present evidence that America as we know it could be destroyed in the near future from the loss of America's electric grid or other societal collapse scenarios. Many preparedness "experts" severely underestimate the threat posed by millions of starving, desperate people and offer dangerous advice because of it. This preparedness guide will help you develop a plan to escape the deadly rioting and looting, showing you where you can take your family to keep them safe, even if you can't afford a fully-stocked survival retreat. Hollerman's in-depth expertise and recommendations will cover many topics including bug-out bags, SHTF Weapons, tactical gear, survival tools, knives, long-term food storage, livestock, bug-out locations, survival retreat recommendations, and much more.
