Jace Hughes is a Renegade. That means taking almost any job that comes his way, no matter the situation. So long as he can keep his ship floating, he's free to live the life he wants. But that all changes when he meets Abigail Pryar, a nun looking for safe passage out of the system. Too bad there's something off about the cargo she's carrying. Jace knows he shouldn't ask too many questions, but when strange sounds start coming from inside the large, metal box, he can't help but check it out. Big mistake. To make matters worse, he's being pursued by unknown ships--people who want that cargo. Does Jace give up the goods and hand over the nun...or does he risk it all for an even bigger payout? Experience the beginning of a sprawling galactic tale in this first entry to The Renegade Star series. If you're a fan of Firefly, Battlestar Galactica, or Leviathan Wakes, you'll love this epic, space opera thriller. Warning: This book contains action, cussing, and general badassery. Read at your own risk.
