Former US naval intelligence briefing team member Bill Cooper reveals classified information kept in secret government files since the 1940s. Cooper tells of the assassination of John F. Kennedy, the war on drugs, the secret government, and UFOs. His lucid presentation of this information transcends partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. "Like it or not, everything is changing, and the end result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." (William Cooper, October 24, 1989)
